W. C. WHITTHORNE. For State Senator,

BEVERLY B. TOON, Brownlow is preparing to resurrect th

Fer Representative, R. A. GLENN.

Knoxville Whig. The Huntsville Fair opens Oct. 6th, and will continue four days.

THE candidates for Governor, Porter and Maynard, will speak in Columbia on Monday, October 19th. A negro named Stace Anderson was

arrested in Memphis last Monday night while in the act of committing a rape on a white woman. Grant has not yet ordered any troops there. THE Lebanon Herald says that the popular original story published in the

is Sathan. One of the prominent Radicals of the county, informs us that there will be a convention of the party, in Columbia, tomorrow, to endorse the nomination of Maynard, for Governor, and put out candidates for the State Senate and Repre-

fends that iniquitous measure. Grant has taken the Government o Louisiana out of the hands of the vic. torious people and turned it over to Kellogg. This was only to be expected after recognizing the usurper in the beginning. The white people say their sole object in making the war on Kellogg was to secure a fair election in November under military rule. Kellogg had unlimited power over the election, and there was no chance for a fair election while he

had this power. A Pulaski man said in Columbia yesterday, that it the Devil were running against Horace Maynard for Governor, he would choose the lesser evil and vote for the Devil. Horace hates the people of Tennessee as cordially as the Devil does; is largely endowed with the Old Boy's cunning and shrewdness, and being in the flesh here among us is better able to harm us than the Devil is.

The appointment of E. T. Taliaferro on the Democratic State Executive Committee is a judicious one. Mr. Taliaferro is a young man of fine intellect, a good judge of men and possesses a genius for work. The appointment of Col. E. C. McDowell on the Congressional Committee is also admirable. There are few if any Democrats better informed, and none sounder. Like Carnot, of the French Revolution, he "organizes victory."

A terrible disaster occurred at Fal River, Mass., a few days since. The Granite woolen mill, containing seven hundred operatives, mostly females, took fire, and a number of them were burned to death. The scene is described as heartrending beyond description-help- officers of the State Government throughless women hemmed in by the devouring flames, the only chance of escape being to jump out of the window and be dashed to pieces. Twenty persons were killed and thirty-six wounded.

Hon. W. C. Whitthorne, in his ac ceptance speech before the Congressional Convention, said the farmers' movement, which had well nigh spread all over the Union, had made itself felt in every de partment of legislation -- in the halls of Congress and in the State Legislatures. Its influence, both direct and indirect, upor the politics and politicians of the county, had been wholesome and beneficial. Gen. Whitthorne is correct. The farmers' movement has had a wholesome effect upon the country, and especially upon politice inasmuch as it has caused the farmers of the South, for the first time since the war, to take an active interest in political snatters. Until recently they could not be induced to take any part in the selection of men for office, and their indifference in several elections caused the election of inferior men, and in many instances bad men. But while we rejoice that the farmers, who more than any other class of citizens are interested in the making of laws, are throwing off their andifference and taking an active part in politics; yet we fear they may make one serious mistake. To make a senseless war on towns and the professions will not only not benefit the farmers, but will injure them. There is no conflict between them. In this connection we cantract from Andrew Johnson's address be fore the Sumuer County Agricultural and Mechanical Association last Friday: We are talking about farmers and me-

chanics, but don't understand me as making war upon other classes. A certain variety of classes is necessary. We know, as a general proposition that most representative bodies are controlled by men of a certain profession, but the lawyer, when well experienced, and an honest man, makes one of the best legislators. Lawyers are indispensable to a communitr; doctors are indispensable and ministeys are indispensable. It is not good policy to array one class against another, nor d I believe it right to legislate in favor one class as against another.

At the annual re-union of the Second Tennessee Regiment, held at Gallatin last Friday, Capt. R. D. Smith, of Columbia, was elected President. The following resolutions, introduced by Gen. W. B. Bate, as gallant a soldier as drew sword or ramrod during the late war, reflects the scutiments of all true ex-Confederate soldiers. Let all such, on all proper occasions, speak ont in condemna* proper occasions, speak out in condemnation of lawlessness—not for political ef-tion of lawlessness—not for political ef-tion of lawlessness—not for political ef-selected an honester nor more practical fail to do us much good in the Northern proper occasions, speak out in condendate years. Read the resolution: Whereas, we are informed through the newspapers of the country of various acts of outlawry in this State, and a portion of the Northern press are improperly seeking to throw suspicion upon the late Confeder nessee. Not that any of the privileges to throw suspicion upon the late Confederate soldiers as being the instigators or perpetrators of such crimes. EXECUTIVE DEPARTMENT,)

NASHVILLE, TENN., Sept. 18, 1874. } His Excellency U. S. Grant, President of the United States, Washington City, There were sixteen negroes committeed to jail of Gibson county, in this State, charged with a conspiracy to take the lives of the white citizens of their neighborhood. On the night of the 25th of August, 1874, a party of disguised men violated the jail and took these prisoners forcibly from the jailer and killed foar and wounded two, the remainder escaping and being now at large. The next day I offered a reward of \$500 each for

ment of forty-one of the guilty parties, the majority of whom have been arrested, this. Now the auspicious opportunity and the remainder will be if they have has presented itself to us, and all we have tot fied the country.

They are indicted under the second and third sections of the act of the General Assembly of Tennessee of 1869—70, passed the 30th of January, 1870, entitled, "An act to preserve the public out on our political horizon, and see what rights. The tendency of the Federal Government to centralization is increasing with alarming rapidity. Soon, if matters proceed in the same direction they have been titled, "An act to preserve the public peace," and which is in full force.

The sections are as follows: "Section 2. Be it further enacted, That if any person or persons disguised, popular original story published in the Clarksville Tobacco Leaf was written by its editor. This supposition is probably based on the fact that the author's name based on the fact that the author's name is Satten. elony, such demand shall be deemed an assault with intent to commit a felony, and the person or persons so offending shall, upon conviction, be punished by imprisonment in the penitentiary not less

By endorsing Maynard they approve of the civil rights bill, as he de the town or county of this State, masked or in disguise, shall or may assault another with a deadly weapon, he or they shall be deemed guilty of an assault with intent to commit murder in the first degree, and on conviction thereof, shall have no white respectable leader politicalsuffer death by hanging, providing the jury trying the cause may substitute imrisonment in the penitentiary for a period of not less than ten years, nor more

than twenty-one years.

The State authorities have manifested the most earnest desire to enforce the law against the guilty parties, and have demonstrated by these indictments and arrests not only their disposition, but ability to enforce the law and protect all citizens, without regard to race, color or previous condition of servitude. These efforts, I can assure you, will in no sense be relaxed until the majesty of the law fully vindicated. Notwithstanding these efforts, with the result stated, the United States Marshal

and commissioner for the Western Division of Tennessee, with the aid of detachments from the Government garrison at Humboldt, has arrested and is continuing to arrest citizens, and conveying them under guard to Memphis, nearly one hundred miles distant, to answer for the offense charged against them by the

An early reply is respectfully solicited. JOHN C. BROWN, Governor of Tennessee.

President Grant Replies to Gov. Brown's Protest.

No Instructions Given to the Dis-trict Attorney for West Tennessee. Washington, Sept. 19.—The President this afternoon sent the following telegram to Gov. Brown, of Tennessee:

You will soon see him reaching out to get in the white man's party. He i mitative by nature, and cannot reconcil himself to be thrown off from the white man. He cannot survive alone long and ly. For whenever you form this white party, our word for it you will have but few, if any white Radicals, especially those that make any pretensions to manhood and respectability, and should any white man attempt to lead the negro politically, he should not be recognized as a white man socially, but treated as a negro. By adopting this plan, you will have no independents, nor Radical candidates, to keep up political strife and contention between the races. When any candidate addresses himself to the negro
